

A statistical look at the Post-season from 1901-2024

Brien Kocsis 2025

The New York Yankees have the most World Series titles (27). A true statement but the Boston Red Sox has one the best winning percentage for the World Series (9/13=0.692)....Pittsburgh's 5/7 - 0.714 is the best for multiple WS wins/apps (not including teams that have been to one Nationals (2019) and excluding TOR/MIA both 2/2. Interesting fact, there are 5 clubs that have never won a World Series World Series and one win - Angels (2002) and the (all 5 are Expansion clubs) but did you know the Philadelphia Phillies first appearance in the World Series was 1915 and it took them 65 years later to win their first title (1980).

This writer compares the the Original 16 MLB teams to the 14 Expansion teams in playoff appearances, World Series titles and regular season winning and losing percentages, also we compare the 2001 Seattle Mariners to the 1906 Chicago Cubs in which their seasons are very identical - the biggest comparison is they both did not win a World Series. We conclude with the four best clubs winning World Series titles and breaking down their statistical history. Hopefully some questions are answered and some truths are unearthed.
